Rails Laid Down by Canadian Government Regarding the Sending of Food Stuffs Abroad

The Post Office Department is in receipt of a cablegram from the British authorities stating that no persons containing foodstuffs or articles of clothing should be forwarded in future from Canada for prisoners of war in Germany.

The British authorities request that it be absolutely necessary that the above regulation should be complied with, therefore, on or from 24th of February 1917, the Post Office Department will refuse to accept any parcels for prisoners of war in Germany.

The Canadian Red Cross Society, which is the London office of the Canadian Red Cross Society, has been informed that the British authorities have decided to refuse to accept any parcels for prisoners of war in Germany.

In Which Dr. Chase's Nervous Food Has Made Complete Cure of Nervousness and Sleeplessness

Belleville, Ontario, February 8.—There is much talk these days about Dr. Chase's Nervous Food and what it is doing for people who are nervous, sleepless and run down in health. Almost every one of the "Littellton" contains reports of cures, effected by this great restorative treatment.
If you are in need of something to crush the blood and invigorate life, exhausted nerves will be interested in these letters, because they tell exactly what was accomplished by this and other in two cases, which you can investigate, because these people live right here and may even be your neighbors.
"Mrs. W. A. Watts, 5861 Front St., Belleville, Ont., writes:
"Some years ago I was not feeling very good, was suffering from nervousness, sleeplessness and distress, and took medicine from doctor to doctor, but it did me no good. I was then advised to take Dr. Chase's Nervous Food, and after taking it a few days, I felt much better. I continued taking it, and in a short time I was completely cured. I am now as well as ever, and I feel that I should state this to the public, and through the efforts of Littellton, I decided to try Dr. Chase's Nervous Food. After taking a couple of boxes, I found a great improvement, and now always keep them in the house and advise my friends to do so. I am sure for cases like mine."
"Mrs. T. Townsend, Donald St., Belleville, Ont., writes:
"Suffering almost from sleeplessness and nervousness and general debility, I commenced taking Dr. Chase's Nervous Food, and now that I can sleep much better, I feel that I should state this to the public, and through the efforts of Littellton, I decided to try Dr. Chase's Nervous Food. After taking a couple of boxes, I found a great improvement, and now always keep them in the house and advise my friends to do so. I am sure for cases like mine."

Passports Are Necessary Now
Persons Desiring to Go Abroad Must Secure Them From Ottawa
Any person desiring to go to the Old Country must in future procure a passport from the authorities at Ottawa. Hitherto, letters of indemnification from the Dominion Immigration Officer here have been largely used for those going out from Toronto, but a step has been put in this direction on orders received from Ottawa this morning.

The Toronto Immigration Office has been notified that he is to issue no more letters of indemnification to prospective travellers. Passports only will be accepted, and to secure these applications must be sent into Ottawa. In the past the Immigration Officer issued from 50 to 100 indemnification letters in some weeks.

Soldiers' wives have been regular patrons of the Immigration office for the past two years. Hundreds of these women have followed or accompanied their husbands overseas every month, but from now on they will have to look to the authorities at the capital for their papers.

HOCAUST IN CHICAGO

Between Thirty and Forty Persons
Were Burned to Death in The
West Frontiers Place Fire

CHICAGO, Feb. 3.—Between twenty and thirty persons are believed to be dead and as many as injured as the result of a gas explosion and fire that wrecked a tenement building at 2125 West Frontiers place, in the heart of the west side slum district. Three unidentified victims were recovered from the debris.

Injured persons and residents fleeing from their homes tonight, cut and suffocated by a temperature of ten degrees below zero, and the cold hindered the work of firemen and rescuers. Burning gas from a main protruded from the ruins, and at daylight only two bodies had been recovered from the wreckage.

One of the men who was crushed when the walls crumbled, and that of Mrs. Charlotte Sittler.

The explosion was heard for miles. By some freak of the wind, buildings six yards away were undamaged, while windows were broken in some blocks further distant. Hundreds of Hebrew, Lithuanian, Polish and Russian tenants fled in a panic, rushing into the streets and crying.

The explosion wrecked one of the tenement buildings, which contained 15 apartments, 14 of which were occupied. Flames burst from the lower story immediately. When firemen and rescuers were on the scene, a few children, who were dropped by their parents from the upper windows, were seen.

A group of railroad engineers, who happened on the scene, were told of the fire, were reported to have rescued fifteen children.

Many children were taken to the hospital. The bodies of the victims were not so hot as they were expected to be. The bodies of the victims were not so hot as they were expected to be.

Canada's Prestige Work of Soldiers

Have Earned For Country Participation in Empire's War—Conference

OTTAWA, Feb. 3.—Special—Impressed by the splendid spirit of the allied troops, including the Canadian, and the resolute determination and conference in winning the war, Hon. F. B. McCurdy, Parliamentary secretary of the Militia Department, is back in Ottawa after an absence of almost two months in Great Britain and the front. He arrived yesterday afternoon, having crossed on the *Novaya Zemlya*.

Mr. McCurdy observed with satisfaction that the Canadians have been a great name for themselves. "Their great prestige," he stated, "is built upon a record of achievement at the front. The constitution of the Dominion in the coming War Conference is a national ovation for the Canadian soldiers who have performed."

They have nobly earned for their country honor of participation and consultation in what will probably be the most important assembly in the Empire's history.

According to the reorganization of the Canadian forces in England, the Parliamentary Secretary stated that the feeling among the men in one of the most important assemblies in the Empire's history.

PLAIN TALKS ON MARGINING

BY MARK HARRIS

MARGIN TRADING

PERSONALLY I do not approve of margin trading as a trader in a stock exchange.

Many small investors after becoming acquainted with the "dog and pony" game take to margin trading as a short cut to wealth. They say they find it but a trap where they rarely escape with anything but a loss.

The man who works hard for his money and manages to save a few hundred dollars with a view of investing should beware of margin trading. In any case, investment and margin trading are diametrically opposed to each other.

Some brokers attempt to defame margin trading by saying it is the only thing saving a boy from a mortgage on his back. This is not exactly true. A boy who buys a house with a mortgage the same as long as he pays interest on the mortgage while the stock you purchase on margin is sold by the broker at any time with or without notice.

Sooner as a rule will not sell a client's stock until the margin is close to the maximum point, but according to the rules he can do as he pleases.

When I talk about margin trading, it is the fact that it is not a very safe game. It is a game of chance and it is a game that is not a very safe game. It is a game of chance and it is a game that is not a very safe game.

Investors have taught me that fully 50 per cent of investors lose their money in margin trading, and any honest broker will confirm this statement. They will have one opportunity of investigating a proposition the broker offers.

The investor who buys on margin sooner or later loses his money, but the investor who buys outright on a loan can pay for his money and make his money through some reasonable brokerage house that gives clients honest advice.

For one intelligence will continue to say that it is far better to depend on your broker when selecting investments than on your own judgment, but you will have one opportunity of investigating a proposition the broker offers.

In addition the broker has ways and means of getting confidential information that is not open to the average investor. Therefore, if you have the right kind of a broker, he will not recommend an investment unless he is fully satisfied it is meritorious in every way.

Mr. Harris (Mark Harris & Company) people it is to make their profits through their clients' stock, and consequently they will not advise you as simply in recommending a purchase to a client as they would if they were only making money.

We could make more money for a short time by advising margin trading, but margin trading means money, additional commissions and commissions. We know, as the last one of a broker's lecture.

Legal Aspects of Church Union

By CHIEF JUSTICE ARCHIBALD of Montreal

For the name of the United Free Church of Scotland, and referred to the money and funds with which Lord Overton and others were interested as trustees in connection with the Free Church of Scotland, Lord Overton being a contributor to the union.

The Court held that the action of the Free Church of Scotland in bringing the Union could not be maintained in its behalf, and that the trustees of the Union could not be held liable for the debts of the Free Church of Scotland. She hath done what she could

Every married man in the ranks of Canada's soldiers means that his wife gave her consent.

His sacrifice, the danger, yes—but his also the interest of a new experience, the companionship of comrades, the inspiration of action, the thrill of the advance, and the glory of victory.

Her's the pitiful parting, the weary waiting, the fevered watching for the drooped message, the grudging gift of daily responsibility for those dependent upon her—and her alone.

No, not alone! Not alone, as long as the people whose battles her husband is fighting have a heart in their bosoms or a dollar in their pockets.

Not alone—as long as Canadian manhood and womanhood know the meaning of the word "trust." Not alone, as long as Generosity is the handmaiden of Duty and Privilege.

Only an appreciation of the need is required by those of us who here at home keep the hearth fire burning. Not for some of us the supreme sacrifice, but for one and all of us at least that whole-hearted answer to the cry of patriotism that never yet has failed to go ringing around the world when the call has come.

GIVE—GIVE—GIVE as your own heart prompts you, give to

The Canadian Patriotic Fund

\$50,000 must be raised in Ontario for the vital necessities of the great work of caring for the needy families of Ontario's men at the front.

Every case is carefully investigated, everything humanly possible is done to eliminate mistakes and prevent imposition—but to those who need it is held out a helping hand, without lavishness, but with the determination to see no real want unattended.

You are again offered the great privilege, not of charity, but of recognition of the magnificence of Canadian Wifehood. Remember, if the Man is a Hero, the Woman is a Martyr.

"She hath done what she could"

Ontario is being asked to save the Canadian Patriotic Fund. The second is that the Union is a legal entity, and the third is that the Union is a legal entity. The second is that the Union is a legal entity, and the third is that the Union is a legal entity.

TO BE EXPENSED BY THE CITY COUNCIL

Important Matters Discussed—Grants Given 235th and 254th Battalions

During the two hours the City Council was in session last night, questions of general interest to the citizenship were discussed, and the discussion at times was rather warm despite the fact that it was conducted in a friendly manner. Among other matters discussed was the passing of a by-law to deal with the service of Mr. J. W. Harris as City Engineer, city architect, and manager of the Water Works. A proposition to a grant of \$500 to the 235th Battalion seemed considerably in the case. It was expected that the matter of the purchase of the new chairs for the City Hall would have been brought up and discussed, but it was not mentioned.

A number of speakers were present during the meeting, and apparently took much interest in the proceedings. Those present were: Mayor Richard W. Woodbury, Mayor Pro Tem, Charles H. Robinson, Parks, Parks and Deacon.

Minutes of last meeting were read and confirmed.

ASKED FOR A GRANT

Official proceeding with the passing of the Council's grant of \$500 to the 235th Battalion, was heard. The Council had been asked to grant the 235th Battalion a grant of \$500 to the 235th Battalion, and the Council had been asked to grant the 235th Battalion a grant of \$500 to the 235th Battalion.

At the present time, forty-eight
men were taken by Haig's men
in operations east of Beaucourt
last night. The German wedge in the
Valley is methodically being
destroyed. The French troops
succeeded in penetrating the
French lines northwest of
Forest of Parroy, but were speedily
driven out. Northwest of Aitkirch
in Alsace, French forces penetrated

to pieces, thus preparing the way for the spring thrust against enemy lines at three different points. The 1st Division blew up their works, destroyed the shelters and returned without loss.

In And About The City

PAIRED WITH HONORS

Many congratulations are extended to Horley-Jones of Ottawa on having paired first, in a series of matches, with the Toronto Conservatory of Music.

DEATH OF LOCAL LADY

Mrs. Edna Madden, widow of the late Mr. E. C. Madden, passed away this morning at her home, 1000 Grove street, Belleville. An obituary notice will appear tomorrow.

ELECTED A DIRECTOR

At a meeting of the Provincial Association of the Ontario Teachers' Association, held at Toronto yesterday, Mr. W. J. Maher of Rosemont, Prince George, County, was elected to the position of Director. Mr. R. H. Kerwin of this city was elected to the position of Vice President, but declined the honor.

SAME OLD TRAIT

"If you set toward your wife as I do, you will be married here," "Kiss me, I remember you married me at the altar, about 10 years ago with her. I used to have once the force from her of love and hate and I am sure she is still about to go to bed. I get just the same way now when I set him late."

DISAPPEARS FROM HOME

Mrs. John Madden, who has been ill with a nervous breakdown for some weeks, caused by overwork and loss of sleep, has disappeared from her home, 1000 Grove street, Belleville, and has not been seen or heard from by his family since 10 o'clock Sunday morning. The police in Belleville have been notified of the disappearance of the man.

WANDERER TAKEN ILLEGALLY

Yesterday afternoon a Dane, who gave his name as H. Hansen, appeared before the Police Station, alleging he was ill. Shortly after he became worse, and a physician was called to see him. The physician said that the man's condition was such that he was incapable of his journey. Today his condition was improved. Hansen is a man about 30 years of age. Where he came from is not yet known.

Looking For

Dope Swindler

MONTREAL, Feb. 8.—Detective
McLaughlin, of Ottawa, is in the city
looking for a "tall robed man" who
has been swindling the underworld
of the Capital city on a large scale.
He operated quietly in a vice area, and
could not be exposed by his super-
visors without their committing them-
selves to a full investigation.

His method was to show a small
open case of opium and offer any sum
for it. He would then show the opium

Sun Life Leads Canadian Companies

The Sun Life of Canada's published statements of 1916 results, which appear in this issue, is in every sense a satisfactory document. It shows assurance earned and paid for in cash during 1916 of a total of over \$47,710,000, the largest amount of net business ever written by any Canadian life company in any year. As assurance in force now total over \$850,000,000. Assets increased by over \$5,000,000, to practically \$53,000,000, the largest asset ever attained by a Canadian company. Cash income totaled nearly \$10,000,000, an increase of over \$2,000,000 over that of 1915. Payments to policyholders exceeded \$7,000,000, bringing total payments to policyholders since incorporation to over \$30,000,000.

The Sun Life of Canada for 1916, reflects the highest credit on the Directors and Officers of the Company, and should be equally satisfactory to the Company's policyholders.

\$5,000,000 OR MORE FOR SNOKEFEE POWDER

The Government of Great Britain has carried an option on an additional 50,000,000 pounds of smokeless powder to be manufactured by the British Explosives Co. of New York, Canada, extending to the end of the year. The option is valued at \$5,000,000, and is the second order for this quantity of powder since the war. A further option for an equal quantity is held by Great Britain and may be exercised before the end of July of this year.

The British powder manufacturing companies, T.N.T., and picric acid, are now looked to capacity to the end of the war and the military powder plants have orders requiring capacity operations until thirty days after the end of the war. The remaining plants are now working on the order here announced and will be largely finished by the end of July, at which time the next option for 50,000,000 pounds is expected to be exercised.

SLIGHT STILL MEN PAY LIGHT PENALTY

An Irish whiskey bill, one of the largest yet introduced by the Revenue department, was introduced by D. J. Kennedy at Carleton Place. The bill was introduced by the Revenue department, which is now being considered by the Government of a revenue of over \$2,000,000 a month.

After Kennedy failed the two-story wooden house in which the house was located on Montreal avenue when the war was brewing, and destroyed four men who were charged with the destruction of the house, 125 gallons of whisky, three one-half gallon gallons and two other containers.

The four men were Jack Campbell, Samuel O'Brien, Dominic Langlois and Orlin Brier. All appeared before Judge Lacombe yesterday and were fined \$100, and costs with the exception of a full sentence, they paid their fines. The apparatus was ordered to be destroyed.

THE DEEDS OF ACCIDENTAL DEATHS

Coroner's Jury Returns Verdict of Accidental Deaths—Recommendation to Impart Instruction For Work Which Was Engaged in

Coroner's Jury, expanded to enquire into the deaths of what men Russell Burt and his wife, and the following: That the deceased at the Canada Cement Works, Point Am, Toronto, of Thorton, on Tuesday, February 6th, 1917, met his death as the result of an explosion by the risk of men went from a bin in which was working.

In our opinion, while it was an accident, we believe that some instructions should be imparted to workers at the plants who are engaged in such work as the removal of, and, namely, leaving.

Such was the verdict rendered last night by the Coroner's jury, which considered the circumstances regarding the death of Russell Burt, an employee of the Canada Cement Works, which unfortunate incident occurred at the plant, St. Joyce, Coroner, president of the Coroner's Court, Attorney General, the examination of witnesses. The evidence submitted was as follows:

Mr. Groves, testified he was a regular employee at the Canada cement works at Point Am. He never saw deceased Russell Burt, and he returned the day of the accident, working at the time in the plant. A man should be careful at the work he is engaged in. Witness was the first to arrive at the place, where the accident occurred. Russell Burt was a man who was called a "punch" in a bin, and the cement comes out from him, only one hand was visible. Burt went into the bin to work, the cement was not visible. Witness saw Burt's legs sticking from the men engaged in the work. He was dead when he was taken out. Burt was taken to the hospital and died.

Dr. Gidley, testified that he was called to the death, having been called to the cement plant. Death was due to asphyxiation. Did not know the man.

Mr. R. W. Wap, testified that he was employed at the Canada Cement Works. Witness was a shipping clerk at the work. Witness did not see the accident, but arrived upon the scene just as other workmen were carrying the body. Burt was taken to the hospital and died.

John McKenna, being sworn, testified that he was an employee at the Canada Cement Works, and knew the deceased Russell Burt. The blow was given to the head, and the body was struck in the day time. On the day Burt was with the accident, he was employed in the office. Deceased was engaged in loading, when he was taken to the hospital. Witness did not go down to see Burt, but he heard of his death from his assistance. Never heard of Burt before.

person doing so before. Frank Groves gave witness information as to how to take the handle off and also told him to be careful and watch for the cement as it might slide and be dangerous.

Samuel Poirer, testified that he was employed at the Canada Cement Works, was kneeling about four months. He learned himself using his own judgment as to the opening of the bin, sometimes he would make "P" opening with an iron bar and sometimes with a pick. Witness never instructed any person in kneeling. He had worked in the bin when there were three boards in the door. Witness was the opinion that the accident was caused by the cement and when he went inside the bin the cement came down in such a quantity that he was unable to get out.

Albert Bristed testified that he lived at Thompson street and worked at the Cement Plant, but not recently. He never knelted, but he had seen it done. He said that he was placed in some bags on a bin and the cement could get away.

The considered the taking of the evidence as they were returned after the Coroner had briefly outlined the nature of the accident.

CASUALTIES AMONG CANADIANS

LINCOLN

**Fighting a Victorious War of Deliverance
From The Worst Slavery That Has
Ever Threatened Mankind**

LONDON, Feb. 12.—Special-
David George has delivered to the
H.M. Correspondent of the New York
Times for publication a Lincoln day
message.

The absorption of the British Prime
Minister in absolutely the greatest
crisis ever laid upon a human being is
so deep that he was unable to attend
the opening of the House of Commons
last week, and literally every minute
of his life is being consumed up with
the vital matters of the hour, and
the Lincoln anniversary made such an

and freedom by the terrible strain
of war. Nor, after the first few
months had been over, did he hesitate to
say that the only way to win the war
was by sacrifice, to submit to no
limitation upon limitation of their per-
sons, their lives, but to give
down, there was a law with which
I would in your land.

Is there not a strange similarity
between the two? The men are being
laid here in Europe and that which
Lincoln fought? Has there not grown
out of this war a new form of
slavery, which has not only

[illegible]

during the last twenty years?"

people are coming to realize this too. "Lincoln's life was devoted to the cause of human freedom. From the day when he first recognized what slavery meant he bent all his energies to its eradication from American soil. Yet, after years of patient effort, he was disappointed. He was disappointed, and his associates, such as LINCOLN, are ministers of good, not evil." So we do bellers. And through all the carnage and suffering and conflicting motives of the Civil War, Lincoln held steadfastly to the belief that it was the freedom of the people to govern themselves which was the foundation

shrink, after every other method had failed, from vindicating both Union and Empire of an Empire over others they have found self-government for themselves."

Studebaker

Since 1899

DURABILITY

One thing that adds value and life to the Series 18 FOUR and SIX is the special steel used in the manufacture, made to Studebaker's own specifications especially for Studebaker cars.

Which is the scientific heat treatment of vital parts, like gears, axles, and shafts, which makes them stronger, longer-wearing, and permits lighter weight with increased strength.

A third is the absolute accuracy of Studebaker manufacturing processes, and the resulting perfect fit and alignment of all parts, and perfect balance of motor parts and the entire car, reducing friction and wear to the very lowest point.

This is why Studebaker Cars "stand up," give continuous service month after month, year after year, with low upkeep cost, and why a Studebaker in the end is one of the most economical cars in the world to buy.

Let us give you a demonstration.

Today, Wednesday, a baggage-master at the Lee Bridge Station of the Important, Great Eastern Railway, has given the conservative British people a shock by announcing his candidacy for a seat on the Railway's Board of Directors. He is, in itself a small stockholder, and desires that the Board should consist of a large number of other small stockholders, whose aggregate voting power he hopes will be sufficient to win him his coveted place in the Directorate. Most of his supporters are peo-

Beautiful New Boots Arrive

Smoothness of fit—that is the story of these New High Cut Kid Boots. The woman of today gives fully as much thought to the fit of her foot as to the hang of her dress. In these new models she will find boots that hug the ankle and cling to the instep as tightly and smoothly as she can imagine or desire.

AL. M. WILSON IN "MY KILLARNOE"
HEW ROSE, AT GRIFFIN'S
FRIDAY
AL. H. Wilson and his company
will present the new Irish play "My
Killarroe Rose," at Griffin's Opera
House next Friday night.
This new Wilson offering is the pro-
duct of Herbert Hall Wilson, who
has produced a surprising story
with an Irish atmosphere embodying
aboriginal episodes that are novel,
various and dramatic.

WORLD FAMOUS DANCERS IN
"QUEST OF LIFE" AT GRIF-
FIN'S MONDAY
"The Quest of Life," which comes
to Griffin's Opera House on Monday
and Tuesday night, stars the two in-
ternationally famous dancers, "Ma-
jor" and Florence Wilson. The story
was depicted from the play by J. H.
Griffin and Charles H. Griffin. The
story. The beautiful daughter of a poor
family, is much run down to health,
and the doctor tells her that she must
go where she can spend more of her
time in the open air. The doctor's
diagnosis and bookkeeper in a
large warehouse, in her desperation
she decides not to carry out the doc-
tor's plan, she applies for work with
a theatrical company.

DODGE BROTHERS MOTOR CAR

Two hundred thousand owners, or rather two hundred thousand families, are of one mind concerning Dodge Brothers' motor car and the men who make it.

BECAUSE of the name it bears you may be sure that the principle behind the car will never be changed a hair's breadth.

THAT principle is to build so soundly and so well that the good will which the car has won will grow and endure forever.

PAPER ENQUIRY THOROUGH

NEW YORK, Feb. 16.—Officers of the Newspaper Manufacturers' Association, an expectation of 60 individuals and companies, appeared as witnesses today before the special Federal grand jury chosen to investigate whether increases in the price of newspaper paper constitute a violation of the anti-trust law. After the manufacturers have testified a number of newspaper publishers will be called, and it is expected the investigation will last at least a week. A large mass of documentary evidence is ready for the consideration of the jury.

LITTLE WORRIES IN THE HOME

These Bring the Wrinkles and Patches That Make Women Look Prematurely Old.

Almost every woman at the head of a house meets daily many little worries in her household affairs. The care of her little ones, the work about the house all contribute to these worries. Most of them may be so small to notice an hour afterwards, but they constitute a constant strain that affects the blood and the nerves and makes women look prematurely old. The effect of these little worries may be noticed in sick at nervous headaches, irritability, loss of appetite after slight exertion, and the coming of wrinkles which strew woman's forehead. To those thus afflicted Dr. Williams' Pink Pills offer a speedy cure; a restoration of color to the cheeks, brilliancy to the eyes, a hearty appetite and a sense of freedom from weariness. Among the many thousands of Canadian women who have found new health and strength through these pills is Mrs. G. Strasser, Agent West, Ont. who writes: "I am the mother of three children and after each birth, I became terribly run down. I had weak skin, blood always felt tired, and unable to do my household work. After the birth of my third child I seemed to be worse and was very badly run down. I found the greatest benefit from the pills and soon gained my old time strength. I could now do my little work and have found them a splendid medicine for my children."

Dr. Williams' Pink Pills are sold by all dealers in medicine or you can procure them by mail at 50 cents a box or six boxes for \$2.50 from Dr. Williams' Medicine Co., Brockville, Ont.

PLOT IN HAVANA NIPPED

Members of Police Force Said to be Involved

HAVANA, Feb. 16.—General Cerda Machado, a prominent Cuban military official and a member of the Cuban Committee, is reported to have been killed at Las Villas. He was formerly Minister of the Interior. Another member of the Liberal

committee, General Aubert has been captured by Government troops. He was formerly governor of Havana Province.

According to the Havana newspapers a plot was discovered early yesterday in which the Havana police are said to have been concerned. The plot involved, it is said, seven officers, ten sergeants and eighteen men.

Americans Feel They Are Deserted

Those in Europe are Neglected by Washington Government

NEW YORK, Feb. 16.—The Tribune this morning published the following cable, dated London, February 15, from Arthur S. Draper:—

"We since the early days of the war have there been so many bewildered Americans in Europe wondering how and when they will be able to return home. In Holland, France and England there are large numbers of stranded Americans who feel deserted—without a country and without protection except that accorded them by courtesy of the allied Governments. They are bewildered because their inquiries at the American Embassies in London, Paris and The Hague elicit only the most unsatisfactory replies. Apparently all American diplomatic officials are so much at sea as if cut off completely from the State Department at Washington."

With no intention of embarrassing the President and with a full appreciation of the gravity of the situation these American desire simply an official statement of instructions. Their present position is painful. They are perfectly willing to follow whatever instructions are given, whether it means a prolonged stay in Europe. Until that advice comes they feel deserted and neglected, although their country is not at war.

In the present condition, whatever protection they receive comes through

DEATH OF MEMBER OF 254th BATTALION

As the result of an attack of pneumonia, Private John W. H. of the 254th Battalion, died in Belleville yesterday. Deceased, who was in his 30th year, was a son of Mr. and Mrs. Massey Wrightmeyer, who reside at 18 Ward street, Belleville. He was born at Orlington, Durham county, and came here last fall, and enlisted with the 254th Battalion. Having no relatives in the district, he was taken care of by his widow but on family arrival. In addition to the parents, three brothers and two sisters also survive. One brother is in France, and another brother is a member of the 254th Battalion. The funeral hereafter, will be of a military nature.

550 BUS CHASERS FOR THE BRITISH

All These Constructed by American Firm in Less Than 30 Days

NEW YORK, Feb. 13.—Special.—The New York Times publishes details of the building and outfitting of the 550 British Government by the Daimler Motor Corporation, N.Y., of 550 submarine chasers. The boats it is being built to less than 500 days. Each chaser is 30 feet long, with a beam of 12 feet, and a draft of 22 feet. It draws only four and a half feet of water, and is capable of making 20 knots an hour for 600 knots, and fifteen knots an hour for 1,000 knots. Two engines, each of 100 horsepower.

Cuba Securing Potatoes Here

Enormous Shipments From New Brunswick are Reported

OTTAWA, Feb. 19.—Canadiana will find food for reflection in a statement sent to the Trade and Commerce Department from Cuba, by J. C. Manser, who represents that department of the New Brunswick Government there. He tells of the enormous quantities of Canadian potatoes that have been shipped to Havana. He says: "The arrivals of potatoes this week at the port of Havana amounted to 21,000 sacks and barrels. The entire shipment came from New Brunswick and it was necessary to put on an additional steamer from Boston in order to handle this large quantity. The shipments are worth for \$100,000 at Havana, and also the most valuable Canadian shipments of potatoes that ever arrived in Cuba in one week."

During the five months ending January 30, when shipments of the 1916 crop have been coming forward Canada has shipped to Cuba 220,000 sacks and barrels of potatoes, worth for \$1,400,000. Yet Great Britain, the Allies, and Canada herself, are short of potatoes today.

Music & Drama

A DAUGHTER OF MAGRORE AND CAMERON STAIN

AT GRIFFIN'S TOMORROW
Valentine Grant's Persian cast, "Ladies" has a constant theatre to go into the pictures. When Miss Grant was acting in "A Daughter of Magrore" a dramatic romance of Scotland and America which is supposed for exhibition at Griffin's tomorrow night, and Thursday night, Ladies followed everywhere she went. In one of the biggest moments of the piece, while Miss Grant was yelling "I will not yield," Ladies trod on the set and spoiled the scene. Office casts are alright in real life, but not in the movies. Especially when they jump at the man who was worshipping their mother, it is what Ladies did before he went through. That part of the picture had to be retaken, and Ladies was completely locked up until it was finished.

CLOSING CHAPTER OF

PEG OF THE RING AT BASE TOMORROW

The closing chapter of the popular circus serial "PEG OF THE RING" featuring Francis Ford and Grace Cavanah, is announced for exhibition at the Palace tomorrow and Thursday night. Besides this picture, the famous Fox photo play, "The Varnum" appears in a brilliant first part story of the west entitled, "The

CUBES

Man from Bitter Root." A new Lake comedy will also be presented.

AL H. WILSON IN

"MY KILLARNEY ROSE"

"My Killarney Rose" is the characteristic of the new Irish-comedy play Sidney H. Ellis is presenting that fitted character comedies all around at Griffin's Opera House tonight and tomorrow night.

Mr. Wilson does not require any outside praise as a clever entertainer for he has earned his good position by "making good" and his large following of admirers hold him at the head of his profession from their love of an artist, who has delighted them so often.

This new offering "My Killarney Rose" gives promise of being the best of days to Mr. Wilson's career—for both juries and public have proclaimed it such. Tom Gray in the leading role is wonderfully suited to Mr. Wilson's personality and comic abilities—being Irish in theme, one can imagine the wit and romance abounding in the lines and situations, and such as the case—and the result is a performance, far varied delight, rivaling any other before the public today. Of course one of the great features are the songs, and they are of a nature that reflects the atmosphere of that great little life. They are entitled: "My Killarney Rose," "The Love I Give to You," "My Hometown," "Where the Shamrock Grows," and "The Song that Tells My Girl Away."

I. C. R. FREIGHTS CRASH
Brakemen Hangs to Bridge Saving Life

QUEBEC, Feb. 19.—Heavy material damage but no loss of life or personal injuries was caused Saturday at St. Lawrence, Quebec County, when two I. C. R. freight trains collided. The trains were both drawn by large Santa Fe Railroad locomotives.

The two trains were coming east on a small bridge between the two trains and when he saw the second locomotive Yarrowdale, "would be fed himself down between the time and keep hold with bare hands while the train rolled over him. So narrow was Robert's escape that the co-traveller of the locomotive cut his coat to pieces.

In And About The City

OUTY MEMORIAL ANNIVERSARY.
Memorial services at the City
Mission on Dundas Street, were held
last evening, quite a number being
present. A report by the young peo-
ple was read at 8 o'clock, after
which short prayers were given.
Mr. C. H. Chapin, presided over the
proceedings.

HENR OREMIATED.
At Barreton, on Wednesday night
the deceased a turn no promises or
consequences by Mr. James Orem.
The building was created, a considerable
loss at the time. The building was
building was created by Mr. T. Max
well.

INJURED BY BLAST.
Mr. L. L. Chubb of Barreton, was
this week the victim of a painful ac-
cident at Trenton. He was working
on a steam drill, when a blast was set
off without proper warning being given
and a piece of flying rock
struck him on the temple, inflicting
a very bad injury. A son of Mr. L. E.
Chubb of Kansas, was injured at the
same time.

CANDIDATE FOR CLERKSHIP.
The Barreton Times in its issue of
this week says: Mr. W. J. Neff, Clerk
Barreton of Trenton, is a candi-
date for the office of County Clerk.
He is a resident of Barreton, and is
a son of Mr. A. M. Chapman. Mr. Neff is well
known in the community. He has
a thorough knowledge of county
affairs, and the appointment would be
a very proper one.

SAFETY FIRST

A most interesting display of
your eyes. If you consult us, your
eyes will be examined by an Expert
equipped with all modern Scientific
Appliances, for eye testing, the lenses
also will be examined by Expert craft
for each eye as tested.

In case of accident the sale of
the lens required, may be in any of
the 100 degrees of a circle, and
such lens being required, in case of
limited experience, might easily be
out of the degree out, thus material-
ly marred. The effect of lens has
possibly, injuring the eye. I am
very frequently consulted by various
social classes.

NEW VIEW OF DOMINIONS

Premier Borden to Go Chances
Says Times

LONDON, Feb. 22.—The Times in
an editorial says that Premier Borden
has been in London for some time
last visit. Perhaps the deepest and
most important the new view of the
Dominion has been impressed upon
the British people. His own
presence here is invited to the
special Government to take a look at
the War Cabinet of the Empire, is a
proof of that.

THE REASON

"Kale: "If you please, may I
ask?"

"Kale: "Now, Kale, since you
have been with me you have been
away to the house of two mothers,
four sisters, six sons, and nine com-
panions. I wish you clearly to under-
stand that I will have no more dis-
cussion in your family."

"Kale: "Very well, my son. I was
going to ask you if it would have
been of this afternoon to see my sis-
ter's new baby."

FOR FREEDOM OF THE SEAS

A Suggested Policy of Corridors

(Montreal Standard)

"Like our pallid Alluv of the East
we are one life and sufficiency to a
free access to the sea, by the way or by
sea, a language which can have no
meaning for us."
We alone of the great nations, as I
have said, exist upon the strength
of our Fleet, and the moment we place
ourselves in a state of inferiority on
the sea our life and freedom are
at an end. It is the life of the nation
that any other nation should
make an equal sacrifice. His policy
would inflict no injury upon Ger-
many, which the heart of a great
continent would not suffer. It would
and strengthen her defenses without
putting out to sea. Nor can it give us
any satisfaction in hour that the limi-
tation of naval armaments is a ques-
tion of the limitation of war."
With our supremacy, as we possess
this question would have neither
nor would we have interest for us
in any which we could not win.

"What our fathers won by the sword
and kept by the sword we say shall
survive." And when President Wil-

son said the sea would be worse than
land, and if our enemies were
free to transport an army along
one of President Wilson's corridors
to the coasts of England, the sea-
men made up our minds to be the
last of Europe the better.

We shall never be the bachelors
of Europe because the policy shall
which the ships of all nations shall
pass at their ease, even in war time
will never be accepted by us. And if
there are to be corridors on the sea,
why shall there not be corridors to
the Continent also?

If the freedom of the sea is to be
complete there must be added to the
freedom of the land. Why, for in-
stance, in this present conflict
should we be debilitated from every
side by land to Russia, if we wish
the principle of freedom for all? We
Russians are all for this; we wish
to exchange with them opinions and
committees.

But Germany has the road. She will
not permit her enemies to cross her
territory to her left, "obscure," and she
is in the right of it. And we are in
the right of it, too, when we forbid
the Germans to use the highway of
the sea to our undoing.

Therefore, if we agree to have any
more of free highways and open cor-
ridors, it will be to our undoing, by
land as well as by sea, that is discus-
ed. And since that will never be
discussed before the nation, we may
as well take it in the thought that
we shall not accept a doctrine which
will enable us alone and allow all the
other nations of the world the full
enjoyment of their strength and their
position.

Now can it be said that in peace time
we have ever used our supremacy to
the detriment of others. We have per-
formed with our ships as policemen of
the sea with scrupulous justice and
without any dangerous and un-
necessary force. And during the war
we have obeyed all those laws which
are based upon the equity of nations.
We have outraged no one; we have
committed no murder upon the ocean.
The freedom of the seas claimed by
Germany—the freedom to down men
and women by submarine—is not the
freedom which we claim to possess.
And as we shall always refuse to
countenance peace without justice,
we shall never forget that the final
and last remedy of an island nation
is to rule the waves.

AN ENGLISHMAN.

"A fine remark for the first day," said
the wife of the tailor who had just ap-
peared in Belleville. "That must mean
that the old tailor isn't giving general
counsel." "It may mean that he
isn't giving general counsel."

Forty Thousand Are Now in Symmetry With Demands—Disburseances

MAJESTIC, Poland, Feb. 24.—The newspaper, Les Nouvelles, says the strike in Krupp factories is continuing spreading, and four thousand workers are now on strike, and disburseances have also occurred at Alsace-Chapelle.

Drop in Canned Goods Prices

This Is Predicted as Result of British Restrictions on Imports

TORONTO, Feb. 23.—Produce dealers look for a big drop in the price of canned salmon, sardines, and other canned produce as a result of Lord George's announcement of restrictions on imports to England on account of the lack of tonnage. It is pointed out that the shipments of these Canadian products have hitherto been sent to England.

Forces Join In Balkans

Clear Enemy From Road Between Gorizia and Ljubljana

LONDON, Feb. 23.—A British despatch from Belgrade says that the Allies succeeded in cutting postal communications between the Austro-German forces when they established contact yesterday between the French and Italian troops and cleared the enemy forces from the road between Gorizia and Ljubljana. The British forces are now restricted to wireless and airmail communication.

Gels \$200 Back

Executive Clemency Extended to Stratford Montrealer

STRATFORD, Feb. 23.—F. R. Blissett, counsel for George Bell, proprietor of the Royal Hotel, has been notified that the liquor license authorities in Toronto have recommended to the Lieutenant-Governor council that executive clemency be extended and his \$200 fine remitted. Debt was a few weeks ago equities by Magistrate Makin of a charge of having and keeping liquor over strength in his hotel, when one bottle of cherry whiskey, out of seven taken by Inspector Elliot, was found by the provincial analysis. At present, the license was heard before County Judge Barron, who recommended executive clemency, as defendant was innocent of any intention to break the law, having purchased the liquor of good faith through an agent. The provincial analysis in view of the fact that an appeal from a motion to quash a county judge's decision is not allowed, will use this method of giving redress to Mr. Bell.

BETTER SYSTEM FOR MARKETING BUTTER

Govt. to Ask House For \$75,000 to Start Plan

TORONTO, Feb. 23.—In order to provide the beginning of a system of producing and marketing butter, the Ontario Government is asking the House this session for an appropriation of \$75,000. The plan is to be put into operation in the fall of that in operation in the West. The Department of Agriculture will establish and operate a central grading station, probably with cold storage facilities. To this station creameries will send a sample of each day's churn of butter of eight or ten pounds. The department's experts will test the butter and have a certificate to the effect stating the grade of the day's output when the sample is taken. The sample itself will be bought by the station from funds provided, and will be re-sold.

GERMAN'S BIG WAR SECRET

Outs for Fifteen Million Marks—Germans for Country Anything But Hospital

Special Afternoon Wire.
LONDON, Feb. 24.—A British despatch from Amsterdam says that in Germany has been increased by ten per cent, in the Budget presented yesterday by the Finance Ministry, who announced a new war credit of fifteen million marks. The war credit of the world, the Finance Ministry said, exceeds three hundred million marks, and not more than a hundred billion, was Germany's share. The cost in the first few months would not rise, and Germany is said to have a credit of fifteen million marks. Next month Germany must give another war credit and the budget picture was certainly serious. Germany's economic life was not likely to look to the future. It was certainly a horrible life, but not likely to look to the future. It was certainly a horrible life, but not likely to look to the future.

Great Enthusiasm Accompanies Work of Campaign—Expected to Reach \$50,000 To-night—Do Your Share

If the Thermometer at the Patriotic Fund Headquarters, corner of Bridge and Front streets, was a weather indicator, the food problem would be quickly solved, as it's present reading shows tropical conditions. During the morning cold steadily up to the \$100 mark, and was not satisfied to stay there, and started its journey to the Blue Sky, which is now the limit set for the Patriotic Fund. The good citizens of Belleville are about the "Blue Sky Limited" bound for Self-respect, Cleanliness, and all points right up to Patriotism.

The Committee will be on hand all evening to receive subscriptions, and those who can't get to Headquarters tonight, some one will be on hand most of next week, while the late are being prepared for publication. A great many of the good citizens of Belleville, feeling that they had not done sufficiently by the Fund, have walked into Headquarters and asked to have their subscriptions accepted. That is the spirit. Why can't more do this. It is certainly appreciated by the Committee, and the people who have not given enough will be called upon again, so, do it now and help the Committee to do this most necessary work. No man, connected with the soliciting of subscriptions ever gives the work. They are all doing their duty. It is not a pleasant occupation. Therefore, it is up to the public to do it, and there is no way in which they can be helped so as to come in voluntarily and subscribe. Not only for the money brought in; but it shows that your heart is in the right place, and that you want to help.

One noticeable thing about the voluntary subscribers is that they are nearly all women. The women of Belleville, throughout the campaign have done nobly. They have encouraged the canvassers to go far and wide, and have made them, far more so than the men in proportion to their incomes. They have not only made them, but they have made them, far more so than the men in proportion to their incomes.

One of the most interesting things about the campaign is the fact that the men have done nobly. They have encouraged the canvassers to go far and wide, and have made them, far more so than the men in proportion to their incomes.

REACHES ADVANCES IN ON EVEN WIDE FRONT

**Reaches Outskirts of Le Barque, Ires and
Pulsieux-au-Mont—New Front
Extends From East of Guedoucourt
to South of Gommeourt**

LONDON, Feb. 27.—Special.—The British advance on the Arnes River has attained a depth of two miles and extends along a front of about eleven miles according to the official report from British headquarters in France last night. The text reads:

"The Arnes river has been crossed in the communications Saturday and Sunday were maintained during the day on both banks of the Arnes. On the right bank a force of about 10,000 men advanced across a front of about eleven miles, from east of Guedoucourt to south of Gommeourt, and has attained a depth of two miles."

"In addition to the village of Serre reported yesterday, we now occupy the strong point known as Butte de Warlencourt, Dancourt, Tyne and Mirambert. We have reached the south of the Arnes."

**Holland Fears
Belgium's Fate**

**Whole Nation Indignant at
Wholesale Sinking of Dutch Ships**

LONDON, Feb. 26.—Continuing grow in Great Britain today that Germany deliberately planned the torpedoing of the Arnes river today reported on Saturday to have fallen victim to German "submarine."

The belief was based on the fact that Germany, after her light from the Arnes river for a week, had been at Holland and her entire outposts were deliberately ordered to force the Netherlands Government in to war, so that she might aid in the destruction of a nation.

This assumption, it was pointed out, would explain the systematic sinking of large German forces from the Dutch border and the treachery of Berlin in the living up to subordinated granted to the Dutch vessels.

The Dutch situation regarding the discussed here today, being newly as prominently displayed in the news as the German retreat around Belgium.

Commenting on the Dutch crisis, the London Daily Chronicle today made a vigorous editorial assault on President Wilson "because of his verbiage a German on behalf of any interests except American and seemed unlikely to do so."

OFFICIAL STATEMENT

MANAGEMENT

The management of the Company's Properties has been placed in the hands of Wm. L. Credden, E. M. of Butte, mining engineer, geologist and mine administrator of great repute, who has accepted the position of managing director. Mr. Credden is well and favorably known for his record as general manager of the Davis-Daly properties, in the immediate vicinity of the Butte-Detroit properties, which he has turned from a losing to an earning proposition through the prosecution of a well-directed policy of deep development, for making Utah-Apex Company, of Bingham, Utah, under his management a dividend payer, and through his connection as consulting engineer with Butte & Superior, which has developed into the largest and most profitable zinc producer in the world.

PROPERTIES

The Ophir mine, about 20 acres, is located in the southwestern portion of the Butte district, in the heart of the City of Butte, a few hundred feet from the Travauna mine, where the first lode location in the district was made in 1864. The Company retains surface rights to about three acres of ground, on which the mill and the shaft, assay office, etc., are located, in the heart of the business district of Butte. The Shaft of the Ophir, down about 1,055 feet, is the only shaft available in that vicinity, indicating that it will become in time an outlet through which the ores of surrounding properties may be hoisted. It is said that the shaft will command in this way a rich mining acreage many times the actual dimensions of its own estate.

The company's mill, which is now operating, is a splendid piece of construction. It has at present a rated capacity of 300 tons daily, but structure and foundation will admit of this capacity being enlarged to 450 or 500 tons, while the site will permit of the enlargement of the mill to 1,000 tons. The properties are located on the Butte, Anaconda & Pacific electrified railroad and on Colorado street, with trolley line.

The property was recently enclosed with a high fence, the mill was overhauled, three-compartment shaft cleared of water and fully repaired, etc. Under Mr. Credden's recommendation a fund of \$300,000 is being expended for deep development work and mill enlargement. Prior to Mr. Credden's association with the company \$1,000,000 had been expended on the property.

DEVELOPMENT

The Ophir mine is opened up by workings on the 700, 200, 300 and 500 levels to the extent of about three and one-half miles, and gold, silver, copper and zinc ore values have been opened up. The management will sink the shaft to a depth of 2,000 feet to develop copper and zinc ore bodies, and at the same time will do an ample amount of lateral work in crosscutting, drifting, etc., to intersect the Ophir vein and other veins which are exposed on the surface and on the different levels. The Ophir vein shows 42 feet on the surface, where it has the same characteristics as the Black Rock Vein of Butte & Superior. The Ophir vein is opened on the 100, 200, 300 and 500 levels, and crosscutting is now in progress from the 1,000-foot point to intersect the vein. The north vein has been opened up for several hundred feet both on the 300 and 500 levels, and the south vein has been exposed for over 1,200 feet on the 200, 300 and 500 levels and about 500 feet on the 100 level.

Examinations and reports on the Ophir mine have been made by the following engineers in the order named: A. J. Poser, graduate of Freiburg, Germany; W. J. Bailey, of London, England; W. H. Monroe, of Butte, Montana; Edward Walters, of Silverton, Colorado; W. L. Credden, of Butte, Montana; Wm. Walsh, of Butte, Montana, and the time State Mine Inspector of Montana; John A. Ryan, of Butte, Montana, general mining manager of the properties of former Senator Wm. A. Clark, and Max Atwater, of New York, formerly general manager of the Butte & Superior Company. Besides these, a written report was made by S. W. Hall, mining engineer, in the mine's early history, also one by Arthur Clark, mining engineer associated with S. W. Hall. In addition to these, the mine has been examined and informally reported upon by numerous mining engineers and experts of Butte and elsewhere.

This is an official statement authorized by the Board of Directors and published for information only, the financing of the company having been fully provided for.

The shares of the Butte-Detroit are now listed on the Standard Stock and Mining Exchange of Toronto and New York Curb. Any Further information of the Company may be had by addressing members of these Exchanges, or from

MAY CREDIT RISE IN SHOES

BROCKTON, Mass., Feb. 22.—

Immediate lowering of the cost of shoes made from the Butte-Detroit
